

Bolle golf sunglasses were first introduced in 1991. Since then many technological improvements have been made. The Bolle *Eagle Vision 2* lens enhances the contrast at the putting green to recognize the breaks easily. The wrap design keeps the glasses firm and protects your peripheral vision from wind and potentially dangerous UVA/UVB rays. The glasses are lightweight, durable and have adjustable temples.

EAGLEVISION 2

High-contrast cinnamon lens. It's the ideal golf lens, because it highlights the breaks in the green. Best for low light conditions on the golf course. •47%

EAGLEVISION 2@ DARK

Darker version of original high-contrast cinnamon lens. Ideal for bright days on the golf course. •23%

TNS (true neutral smoke) Neutral-density gray lens provides true color definition. Ideal for all-purpose use. •12%
